

Easy to use, very fast and accurate battery tester

✓ **Diagnosis of lead batteries (liquid or gel electrolyte)**

- from **20 to 150Ah**

✓ <b>Multi-standard</b>	<b>Test range</b>
SAE norm :	200 to 1200A
DIN norm :	110 to 670A
IEC norm :	130 to 790A
EN norm :	180 to 1125A
CA norm (MCA) :	240 to 1440A

✓ **Test**

- **without disconnecting the battery** from the vehicle
- or **on separate battery**

✓ The **test** can be done **on a discharged battery as of 7V**

✓ **Protected against polarity inversions**

✓ **Instantaneous analysis (result within 1 second) :**

- battery voltage
- available (real) power at start
- state of battery

✓ **Digital display**

✓ **ABS body (acidproof)**

✓ **Power supply** : without battery, powered by the battery to be tested

✓ **Temperature condition** : 0°C to 50°C

✓ **Dimensions** : 120 x 70 x 15mm

✓ **Weight** : 250g
